

74255

2015 Ford Mustang Fuse Box Lid Cover

Included

One (1) Aluminum TIG Welded Fuse Box Lid Cover

Six (6) Velcro *hook type* adhesive backed disks

Six (6) Velcro *loop type* adhesive backed disks

Step 1: Peel off adhesive backing and stick five (5) Velcro loop disks to the top of the stock plastic cover in the approximate positions as shown in figure 1

Step 2: Place five (5) Velcro hook disks on top of those Velcro loop disks, peel off the adhesive backing

Step 3: Starting at the hinged end, align slot cuts in aluminum cover with the triangle gussets on the stock plastic cover. Press down firmly applying pressure then over entire top surface. This adheres the Velcro loop disks to it underside of the aluminum cover in proper alignment.

Note; The stock cover can be detached from its base for ease of attaching the new lid to it.
