

JOE GIBBS RACING MSDS PO Box 2607 HUNTERSVILLE NC 28078

**Subject: Material Safety Data Sheets** (497)

Date: 01/31/2012

Dear Sirs and Madams,

Please find enclosed the MSDS's sent to you in accordance to the regulations of the sending country relative to the products(s).

### FR20 RACING OIL, 12 X 1 QT/CS

This information is provided to you for the following reason:

The MSDS has been revised since the product was last ordered by your company.

Thanking you in advance for your cooperation, please accept our best regards,

THE LUBRIZOL CORPORATION 29400 LAKELAND BOULEVARD WICKLIFFE, 0H 44092-2298 PHONE: (440)943-1200 0001 0001537867

Log on to www.mylubrizol.com to get the most up to date MSDS. You can also view the MSDS Change Report online that lists MSDS with changes in the last 30 days.

Prepared according to 29CFR 1910.1200.

1 Chemical Product and Company Identification

THE LUBRIZOL CORPORATION 29400 LAKELAND BOULEVARD WICKLIFFE, OH 44092-2298 PHONE: (440)943-1200

Product Trade Name FR20 RACING OIL, 12 X 1 QT/CS

CAS Number Not applicable for mixtures.

SynonymsNone.Generic Chemical NameMixture.Product TypeMultipurpose.Preparation/Revision Date31 January 2012

Transportation Emergency Phone FOR TRANSPORT EMERGENCY call CHEMTREC: (+1) 703-527-3887 (outside the U.S.), 1-800-424-9300 (in the

No. U.S.)

**MSDS No.** 21415747-1433621-5018271-102103

2 Hazards Identification

Appearance Dark amber colored liquid.

Odor Mild

**Principal Hazards** 

• This material has no known health hazards.

#### See Section 11 for complete health hazard information.

3	Composition/Information on Ingredients
Hazardous Ingredients	This material has no known hazards under applicable laws.
4	First Aid Measures
Eyes	Rinse cautiously with water for 20 minutes or until chemical is removed. Remove contact lenses, if present and easy to do. If eye irritation persists, get medical attention.
Skin	Wash with soap and water. Remove contaminated clothing. Get medical attention if irritation develops. Launder contaminated clothing before reuse.
Inhalation	Remove exposed person to fresh air if adverse effects are observed. If irritation persists or if toxic symptoms are observed, get medical attention.
Oral	Do NOT induce vomiting. Never give anything by mouth to a person who is losing consciousness, unconscious or convulsing. Call a poison center or doctor if exposed or you feel unwell.
Additional Information	If exposed or concerned: Get medical attention.
5	Fire Fighting Measures
Flash Point	242 °C, 467.6 °F COC (Typical)
Extinguishing Media	CO2, dry chemical, foam, water spray, water fog. Water can be used to cool and protect exposed material.
Firefighting Procedures	Recommend wearing self-contained breathing apparatus. Do not use a water jet. Use water to cool containers exposed to fire. A solid stream of water will spread the burning material. Material creates a special hazard because it floats on water. Spills produce extremely slippery surfaces. Do not release chemically contaminated water into drains, soil or surface water.
Unusual Fire & Explosion Hazards	Elevated temperatures can lead to the formation of irritating fumes and vapors. Container may rupture in a fire situation. DO NOT USE a solid stream of water. Burning may produce irritating, toxic and obnoxious fumes. See section 10 for additional information.
6	Accidental Release Measures
Spill Procedures	Only trained personnel should be permitted in area. Personal Protective Equipment must be worn, see Personal Protection

Section for PPE recommendations. Take precautions to avoid release to the environment. Ventilate area if spilled in confined

space or other poorly ventilated areas. Prevent entry into sewers and waterways, dispose of in accordance with all federal, state and local environmental regulation. Material on floors may be slippery. Pick up free liquid for recycle and/or disposal. Residual liquid can be absorbed on inert material. Place in metal containers for recovery or disposal. Wash spill area with soap and water. Do not touch or walk through spilled material. Pump any free liquid into an appropriate closed container.

Handling and Storage **Pumping Temperature** Ambient **Maximum Handling Temperature** 70 °C, 158 °F **Handling Procedures** Keep containers closed when not in use. Do not discharge into drains or the environment, dispose to an authorized waste collection point. Use appropriate containment to avoid environmental contamination. When handling, do not eat, drink, or smoke. Avoid breathing vapor. Avoid contact with eyes, skin and clothing. Ground and bond containers when transferring material. Wash thoroughly after handling. Launder contaminated clothing before reuse. Empty containers retain material residue. Do not cut, weld, braze, solder, drill, grind or expose containers to heat, flame, spark or other sources of ignition. Dispose of packaging or containers in accordance with local, regional, national and international regulations. **Maximum Storage Temperature** 45 °C, 113 °F Storage Procedures Store separately from oxidizers. Take precautions to avoid release to the environment. Store in a dry, well-ventilated place. Odorous and toxic fumes may form from the decomposition of this product if stored at temperatures in excess of 113 deg F (45 deg C) for extended periods of time or if heat sources in excess of 250 deg F (121 deg C) are used. Store separately from incompatible materials. Keep container tightly closed. Ground all equipment containing material. Do not store in open, unlabeled or mislabeled containers. See section 10 for incompatible materials. **Maximum Loading Temperature** 70 °C, 158 °F **Exposure Controls/Personal Protection Exposure Limits** None established Other Exposure Limits Contains mineral oil. Under conditions which may generate mists, observe the OSHA PEL of 5 mg per cubic meter, ACGIH STEL of 10 mg per cubic meter. **Engineering Controls** Material should be handled in enclosed vessels and equipment, in which case general (mechanical) room ventilation should be sufficient. Local exhaust ventilation should be used at points where dust, mist, vapors or gases can escape into the room air. **Gloves Procedures** Consult clothing/glove manufacturer to determine appropriate type of glove for given situation. Gloves should always be

inspected before each use and discarded if they show tears, pinholes, or signs of wear.

Eye Protection Safety glasses. If potential for splash or mist exists, wear chemical goggles or faceshield.

Respiratory Protection Use half mask respirator with an organic vapor cartridge if exposure limit is exceeded. Use

y **Protection**Use half mask respirator with an organic vapor cartridge if exposure limit is exceeded. Use self-contained breathing

apparatus for entry into confined space, for other poorly ventilated areas and for large spill clean-up sites.

Clothing Recommendation Gloves, coveralls, apron, boots as necessary to minimize contact. Do not wear rings, watches or similar apparel that could

entrap the material and cause a skin reaction. Launder contaminated clothing before reuse.

Physical and Chemical Properties

Flash Point 242 °C, 467.6 °F COC (Typical)

Upper Flammable LimitNot determined.Lower Flammable LimitNot determined.Autoignition PointNot determined.

**Explosion Data** Material does not have explosive properties.

Vapor Pressure

pH Not determined.

Specific Gravity

Bulk Density

Not determined.

0.85 (15.6 °C)

7.04 Lb/gal, 0.84 Kg/L

Water Solubility Insoluble.

Percent Solid Not determined.

Percent Volatile Not determined.

Volatile Organic Compound Not determined.

Vapor Density Not determined.

Evaporation Rate Not determined.

**Odor** Mild

Appearance Dark amber colored liquid.

Viscosity 613 Centistokes (25 °C)

162 Centistokes (40 °C) 9 Centistokes (100 °C)

Odor ThresholdNot determined.Boiling PointNot determined.Pour Point Temperature-45 °C, -49 °FMelting / Freezing PointNot determined.

The above data are typical values and do not constitute a specification. Vapor pressure data are calculated unless otherwise noted.

10	Stability and Reactivity
Stability	Material is normally stable at room temperature and pressure. See the Handling and Storage Section for further details.
<b>Decomposition Temperature</b>	Not determined.
Incompatibility	Strong oxidizing agents. Nitrates Peroxides. Chlorates
Polymerization	Will not occur.
Thermal Decomposition	Smoke, carbon monoxide, carbon dioxide, aldehydes and other products of incomplete combustion. Hydrogen sulfide and alkyl mercaptans and sulfides may also be released.
Conditions to Avoid	Do not expose to excessive heat, ignition sources, or oxidizing materials. High temperatures.
11	Toxicological Information

#### -- ACUTE EXPOSURE --

**Eve Irritation** Not expected to cause eye irritation. Based on data from components or similar materials.

**Skin Irritation** Not expected to be a primary skin irritant. Based on data from components or similar materials. Prolonged or repeated skin

contact as from clothing wet with material may cause dermatitis. Symptoms may include redness, edema, drying, and

cracking of the skin.

**Respiratory Irritation** If material is misted or if vapors are generated from heating, exposure may cause irritation of mucous membranes and the

upper respiratory tract. Based on data from similar materials.

**Dermal Toxicity** The LD50 in rabbits is > 2000 mg/Kg. Based on data from components or similar materials. **Inhalation Toxicity** No data available to indicate product or components may be a toxic inhalation hazard.

**Oral Toxicity** The LD50 in rats is > 10,000 mg/Kg. Based on data from components or similar materials. Material can be aspirated into

the lungs during the act of swallowing or vomiting. This could result in pulmonary edema and chemical pneumonitis.

**Dermal Sensitization** No data available to indicate product or components may be a skin sensitizer. **Inhalation Sensitization** No data available to indicate product or components may be respiratory sensitizers.

#### -- CHRONIC EXPOSURE --

**Chronic Toxicity** No data available to indicate product or components present at greater than 1% are chronic health hazards. Carcinogenicity This product contains mineral oils which are considered to be severely refined and not considered to be carcinogenic under IARC. All of the oils in this product have been demonstrated to contain less than 3% extractables by the IP 346 test. Mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic. Reproductive Toxicity This product contains para-dodecylphenol. Rats given high, repeated daily doses of para-dodecylphenol by oral intubation experienced adverse reproductive effects. The relevance of these effects to humans is uncertain. Teratogenicity This product contains para-dodecylphenol. Pregnant rats given high, repeated daily doses of para-dodecylphenol by oral

intubation gave birth to pups with cleft palate and skeletal malformations. The relevance of these effects to humans is

uncertain.

#### -- ADDITIONAL INFORMATION --

Other No other health hazards known.

12	Ecological Information	

### -- ENVIRONMENTAL TOXICITY --

Not determined Freshwater Fish Toxicity

Freshwater Invertebrates Toxicity The acute EC50 is 10 - 100 mg/L based on component data. Chronic effects expected at 1 - 10 mg/L based on component

data

**Algal Inhibition** Not determined Saltwater Fish Toxicity Not determined. **Saltwater Invertebrates Toxicity** Not determined. **Bacteria Toxicity** Not determined Miscellaneous Toxicity Not determined.

#### -- ENVIRONMENTAL FATE --

Biodegradation At least 25% of the components in this product show moderate biodegradation based on OECD 301-type test data

Bioaccumulation 25% or greater of the components potentially bioconcentrate, based on octanol/water coefficients.

Soil Mobility Not determined.

13	Disposal Considerations
Waste Disposal	This material, if discarded, is not a hazardous waste under RCRA Regulation 40 CFR 261. Treatment, storage, transportation, and disposal must be in accordance with applicable Federal, State/Provincial, and Local regulations.
14	Transport Information

ICAO/IATA I Not regulated. ICAO/IATA II Not regulated. **IMDG** Not regulated. IMDG EMS Fire Not applicable. IMDG EMS Spill Not applicable. IMDG MFAG Not applicable. MARPOL Annex II Not determined. **USCG Compatibility** Not determined. U.S. DOT Bulk Not regulated. DOT NAERG Not applicable. U.S. DOT (Intermediate) Not regulated. U.S. DOT Intermediate NAERG Not applicable. U.S. DOT Non-Bulk Not regulated. U.S. DOT Non-Bulk NAERG Not applicable. Not regulated. Canada Not regulated. Mexico **Bulk Quantity** 85000 KG, 187391 lbs.

**Intermediate Quantity** 11000 KG, 24251 lbs. Non-Bulk Quantity 400 KG, 882 lbs.

Review classification requirements before shipping materials at elevated temperatures.

#### -- Global Chemical Inventories --

USA All components of this material are on the US TSCA Inventory or are exempt.

Other TSCA Reg. None known.

EU All components comply with the EU 7th Amendment and are approved for EU sales. Lubrizol must maintain records of all

imports of this product into the EU. Third party importers are asked to report every import to The Lubrizol PSCD Manager

(Europe), Hazelwood, Derby DE56 1QN, UK.

Japan All components are in compliance with the Chemical Substances Control Law of Japan.

Australia This product requires notification before sale in Australia.

New Zealand May require notification before sale under New Zealand regulations.

Canada This product requires notification before sale in Canada. Switzerland This product requires notification before sale in Switzerland.

All components are in compliance in Korea. Korea

**Philippines** All components are in compliance with the Philippines Toxic Substances and Hazardous and Nuclear Wastes Control Act of

1990 (R.A. 6969).

China This product requires notification in China. Taiwan May require notification before sale in Taiwan.

### -- Other U.S. Federal Regulations --

SARA Ext. Haz. Subst. This product does not contain greater than 1.0% of any chemical substance on the SARA Extremely Hazardous Substances

**SARA Section 313** From 0.5 to 1.5 percent zinc compounds; contains 0.1% as Zn.

**SARA 311 Classifications** 

Acute Hazard No Chronic Hazard No Fire Hazard No Reactivity Hazard No

**CERCLA Hazardous Substances** None known.

#### -- State Regulations --

Cal. Prop. 65 This product contains the following chemical(s) known to the state of California to cause cancer and/or birth defects based

on maximum impurity levels of components: < 0.05 ppm Benzene, CAS no. 71-43-2 < 0.05 ppm cadmium < 0.05 ppm

arsenic < 0.05 ppm lead 0.002% Toluene, CAS no. 108-88-3
