MSDS SHEET

Revision 10/08

PRODUCT NAME: LAVA MAT

SECTION 1: CHEMICAL PRODUCT Chemical Name: Basalt (Lava) Insulation Product Use: Thermal Insulation **SECTION 2: COMPOSTITION/INGREDIENT INFORMATION** 2.1 **Description:** Roving of continuous basalt filaments with nominal diameter of filaments 10-17 micron and moisture content below 0.5% Hazard **Limit values** Hazardous EINECS-No.: 2.2 Content %: **R-setting:** ngredients symbol Type: N/A 2.3 Additional remarks: **SECTION 3: HAZARDS IDENTIFICATION** 3.1 Type of risk: N/A **R-setting** N/A 3.2 Special risks to individuals and environment N/A **SECTION 4: FIRST AID MEASURES** 4.1 General: Providing instructions for use of these products are complied with, there is no need for First-Aid. Please note the information disclosed in points 7 and 8. 4.2 After inhalation: Normally not applicable. If necessary, take person(s) out in the open that they get some fresh air. 4.3 After skin contact: Normally not applicable. If necessary, remove mechanically. 4.4 After eye contact: Normally not applicable. If necessary, rinse with water for several. minutes. 4.5 After swallowing: Normally not applicable. If necessary, wash mouth out with water. 4.6 Information for physician: Normally not applicable.

SECTION 5: FIRE FIGHTING MEASURES

5.5

Appropriate fire fighting media: Adjust fire in the surroundings. These products are noncombustible

- .2 Inappropriate fire fighting media (safety reasons): N/A
- Particular risks specific to the product, its combustion products or developing gasses: N/A
- 5.4 Required fire fighting PPE: N/A
 - Additional Information:

SECTION 6: ACTIONS ON INADVERTENT RELEASE

Absorb by mechanical means and dispose of them according to item 13. Avoid development of dust. See also item 8.

SECTION 7: HANDLING AND STORAGE

7.1 Safe handling information including technical safe guarding: Increased mechanical stress of the basalt roving may generate dust and airborne fibers, which may cause discomfort. At skin contact, skin irritations are possible. Availability of local suction is advised. The general hygiene rules and measures applying for the handling of chemicals must be employed.

Fire and explosion related information:

The products are non-combustible.

7.2 Safe storage conditions:

Storage room/warehouse requirements:

Storage rooms must be well ventilated. Do not store product in passage ways and staircases; also do always store it in original packing which should be intact.

Incompatible materials/restrictions on combined storage: N/A

Storage conditions:

Storage at room temperature and dryly. Protect against humidity.

Special requirements on electric systems and equipment: N/A

Static charge prevention: N/A

Storage class: 13

SECTION 8: EXPOSURE CONTROLS/ PERSONAL PROTECTION

8.1 Additional information for the design of technical equipment: See item 7.1

8.2 Substances with work-place related limit values/classification subject to control:

CAS-No., EINCS-No.:	Substance:	Max. worksite concentration (MAK):	Peak Value:
	General dust limit value: Respirable content (E): Alveola related content (A):		

Additional remarks:

The fibers processed in our products are uniform and are not subject to EC Guideline 97/69/EC. Furthermore, our products are not considered carcinogenic according to EC Guideline 1999/45/EC and TRGS 220 (Germany). The basalt fibers processed in our products are produced according to a defined process and have a nominal diameter of 10-19 micron.

Manmade mineral fibers categorized in appendix & HazMat Ordinance or TRGS 521 are subject to a TRK value of 250,000 fibers/m³ according to TRGS 900.

8.3 Personal Protective Equipment (PPE)

If the instructions of item 7.1 are complied with, PPE is not required.

Respiratory protection:	At elevated airborne fiber and dust levels, we recommend to use respiratory equipment (dust mask with a fine filter according to EN 143), Filter P1 (EN 141)
Eye Protection:	In case of airborne fibers and dust we recommend wearing safety glasses (EN 166).
Hand protection:	We recommend safety gloves to avoid possible skin irritation (leather or cotton gloves).
Body protection:	Long-sleeved safety clothing as well as normal personnel protective equipment (e.g. safety boots EN 344)

General protection and hygiene:

Before breaks and after the end of the work day, wash hands thoroughly. In case of sensitive skin, apply a rich, protective hand lotion/cream. To protect against skin irritation, avoid tight fitting garments.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Dark-olive	Odor	Odorless
Physical State	Solid/Fibrous	Melting Point	Approx 1050°C
Density (expressed as bulk	2.67 g/cm ³ (raw basalt)	pH-Value (2g in 100 ml of	N/A (DIN 54776)
density (20°C)	2.67 g/CIII (Taw Dasait)	(raw basalt) water, 20°c)	
Vapor Pressure	N/A	Freezing Point	Not Applicable
Self ignition	N/A	Soluble in water	Insoluble
Flash Point	N/A	Soluble in water	Insoluble
Flammability	Non-combustible	Ignition temperature	N/A
Fire promoting properties	N/A	Coefficient of n-	N/A
Fire promoting properties		Octanol/water	
Explosion limits power	N/A	Danger of explosion	N/A

	SECTION 10: CHEMICAL STABILITY & REACTIVITY INFORMATION				
10.1	Conditions to be avoided: Humidity				
_					
10.2	substance to be avoided: When handled as instructed, none known.				
10.3	Hazardous decomposition products:	N/A			
10.4	Other: These pro	oducts are not reactive			
SECTION 11: TOXICOLOGICAL INFORMATION					
11.1	Toxicology test				
	Acute toxicology, e.g. LD50:	No data available			
	Specific symptoms of animal tests:	No data available			
	Primary irritant/caustic action:	No data available			
	Sensitization:	No data available			
2	Effects after repeated or prolonged exposure: No data available (sub-acute to chronic toxicity)				
	Carcinogenic risks:	No, 97/69/EC			
	Genotype and reproduction risks:	No data available			
	Other:	See item 8.2			
11.2 Pi	ractical experience				
	Classification specific information:	No data available			
	Other:				
11.3 G	11.3 General remarks:				
	SECTION 12: ECOL	LOGICAL INFORMATION			
12.1	Elimination data (persistence and degradability	y): No data available			
12.2	Environmental behavior				
	Mobility:	No data available			

No data available

No data available

N/A

-mg/g

BSB5-Value:

General remarks:

CSB-value:

AOX-note:

12.3

12.4

Bio-accumulation potential:

Behavior in sewage plants:

-mg/g

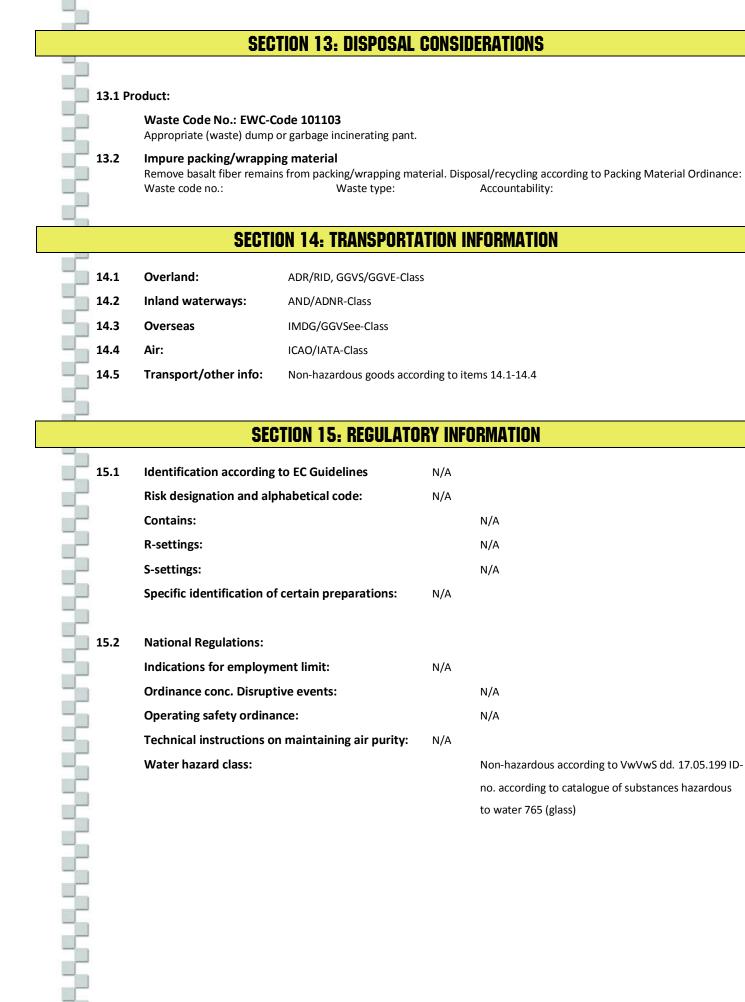

N/A

Other ecological data:

Eco-toxicological effects

Aqueous toxicity:

SECTION 13: DISPOSAL CONSIDERATIONS

SECTION 16: OTHER INFORMATION

Please note:

Data quoted in this Safety Data Sheet relate exclusively to the basalt product described and not to a combination of this product with any other kind of substance, a different preparation, or a different material resp. process. The data describes issues relevant to safety according to the best of our knowledge as it is to date and are intended to protect human beings and the environment. They do not represent quality characteristics nor may they be construed as a release of responsibility when handling basalt roving nor from compliance with existing legal regulations and obligations. The data address wholesalers and are not intended for private users.
